

Hyperbaric SynchroSuite

The Hyperbaric SynchroSuite is a seated hyperbaric oxygen system designed for comfortable, shared sessions in both home and professional wellness spaces. It gently increases pressure while delivering high-purity oxygen to help support recovery, energy, and overall wellness in a calm, controlled environment. With intuitive touchscreen controls, built-in air conditioning, and a spacious, durable design, the SynchroSuite makes consistent oxygen sessions easy, comfortable, and repeatable.

Hyperbaric SynchroSuite

Model: P590

SPECS	
CABIN MATERIAL	Stainless steel + polycarbonate
DOOR SIZE	19.7 × 45.7 in
CHAMBER DIMENSIONS (L × W × H)	98.4 × 65.0 × 72.0 in
NET WEIGHT	≈ 1,102 lbs
VOLTAGE	110 V / 220 V AC
WARRANTY	1 Year
OPERATING PRESSURE	1.0–2.0 ATA
CAPACITY	1–5 users
OXYGEN CONCENTRATORS	2 units included
O_2 PURITY	≈ 95%
O_2 FLOW (PER UNIT)	10 L/min
OXYGEN INHALATION METHOD	Face mask
AIR COMPRESSOR SYSTEM	External all-in-one compressor & control unit
AIRFLOW	72 L/min
AC / COOLING	Dedicated integrated A/C
MOVABLE WHEELS	Yes
CONTROL SYSTEM	Dual internal & external LCD touchscreen interfaces
PRESSURE SEQUENCING	Automatic pressurization, stabilization, depressurization
SAFETY SYSTEMS	Emergency decompression valves and fault monitoring

protocol 4
